BARRINGTON ATLAS OF THE GREEK AND ROMAN WORLD

“Quite simply the most important and most complicated project to be undertaken in classical studies this generation.”
—NEH reviewer

In 99 full-color maps spread over 175 pages, the *Barrington Atlas* recreates the entire world of the Greeks and Romans from the British Isles to the Indian subcontinent and deep into North Africa. It spans the territory of more than 75 modern countries. Its large format (13 x 19 ins or 33 x 48 cm) has been custom-designed by the leading cartographic supplier MapQuest.com, Inc., and is unrivalled for range, clarity and detail. Over 70 experts, aided by an equal number of consultants, have worked from satellite-generated aeronautical charts to return the modern landscape to its ancient appearance, and to mark ancient names and features in accordance with the most up-to-date historical scholarship and archaeological discoveries. Chronologically, the *Barrington Atlas* spans archaic Greece to the Late Roman Empire, and no more than two standard scales (1:500,000 and 1:1,000,000) are used to represent most regions.

Since the 1870s, all attempts to map the classical world comprehensively have failed. This new initiative has finally achieved that elusive and challenging goal. It began in 1988 at the University of North Carolina, Chapel Hill, under the direction of the distinguished ancient historian Richard Talbert, and has been developed with approximately \$4 million in funding support.

The resulting *Barrington Atlas* is a reference work of permanent value. It has an exceptionally broad appeal to everyone worldwide with an interest in ancient Greeks and Romans, the lands they penetrated, and the peoples and cultures they encountered in Europe, North Africa and Western Asia. Scholars and libraries should all find it essential, although it is not just for them. It is also for students, travelers and lovers of fine cartography, as well as for anyone eager to retrace Alexander's eastward marches, to cross the Alps with Hannibal, to traverse the Eastern Mediterranean with St. Paul, or to ponder the roads, aqueducts and defense works of the Roman Empire. For the new millennium the *Barrington Atlas* brings the ancient past back to life in an unforgettably vivid and inspiring way.

“This atlas provides us with a vital missing tool. It is a model of creative planning, and will be absolutely indispensable.”
—C. Nicolet (Sorbonne, Paris)

Richard J. A. Talbert is William Rand Kenan Professor of History and Classics at the University of North Carolina, Chapel Hill, and current President of the Association of Ancient Historians. He taught previously in the United Kingdom and Canada, and is the author of *The Senate of Imperial Rome* (Princeton), which won the American Philological Association's Goodwin Award of Merit.

272 pages with front matter, maps and gazetteer. Publication date September 2000.

MAP-BY-MAP DIRECTORY

The *Barrington Atlas* includes a CD-ROM *Map-by-Map Directory*. A separate 1,500 page two-volume print edition of the *Directory* is also available at \$150 / £95. The *Directory* is designed to provide information about every place or feature in the *Barrington Atlas*. The section for each map comprises:

- a concise text drawing attention to special difficulties in mapping a region, such as extensive landscape change since antiquity, or uneven modern exploration.
- a listing of every name and feature on the map, with basic data about the period of occupation, the modern equivalents of ancient placenames, the modern country within which they are located, and brief references to relevant ancient testimony or modern studies.
- a bibliography of works cited.

The *Map-by-Map Directory* is an essential accompaniment to the *Barrington Atlas*. As a uniquely rich, comprehensive, up-to-date distillation of evidence and scholarship, it has no match elsewhere and opens the way to an immense variety of further research initiatives.

The CD-ROM will work on any MAC or PC that supports Adobe Acrobat Reader, version 4.0. The installation software for Acrobat Reader is included on the CD-ROM.
